SUMMARY

Aspiring Data Scientist with hands-on experience in machine learning, predictive analytics, and data engineering through industry and academic projects. Skilled in Python, SQL, statistical analysis, data preprocessing, and model development for business problem-solving. Experienced in building predictive models, performing exploratory data analysis (EDA), and developing AI-powered solutions using Retrieval-Augmented Generation (RAG). Passionate about transforming complex datasets into actionable insights and data-driven decisions.

EDUCATION

Bachelor of Computer Science (Hons) Major in Data Science	Oct 2023 - Nov 2026
Albukhary International University CGPA:3.30	Alor Setar, Kedah
Relevant Coursework: Object-Oriented Programming (OOP), Machine Learning, Statistical Methods, Data Mining, Data Structures & Algorithms, Cloud Computing (GCP).	
Diploma in Game Design & Animation	Feb 2020 - Mar 2023
Management & Science University(MSU) CGPA : 3.86	Shah Alam, Selangor
Relevant Coursework: UI/UX Prototyping, Game Development, Computer Graphics.	

EMPLOYMENT

Mandrill Tech Data Engineer Intern	Apr 2026 – Present
- Built and evaluated machine learning models to forecast BMW sales trends using Python. Applied EDA, feature engineering, and data visualization techniques to improve prediction performance. - Managed large datasets in Snowflake and performed data quality, cleansing, and validation checks. - Authored technical documentation and SLAs for enterprise proposals to standardize operational workflows. - Developed data-driven POC projects, including a Tableau financial dashboard and an AI chatbot using RAG to streamline data retrieval processes. - Participated in cross-functional meetings to resolve data queries under strict operational schedules.	
Offense Media & Graphic Data & Sales Analyst / Graphic Designer	May 2023 - Jan 2024
- Managed, reformatted, and validated inventory datasets to ensure high data quality and accuracy. - Analyzed historical purchasing and customer trends using Excel to drive sales targets. - Identified process gaps and coordinated with teams to resolve data queries in a timely manner. - Created high-fidelity mockups and data visualizations to accurately interpret requirements.	

SKILLS

Languages: Python, SQL, PHP, JavaScript, C++, HTML

Machine Learning & Analytics: Machine Learning , Statistic Analysis, Predictive Model , Classification Forecasting, Data Mining, Exploratory Data Analysis (EDA), Pandas, NumPy

Data Engineering : Apache Spark, PySpark, Kafka, Snowflake, ETL Pipelines

Visualization : Tableau , PowerBI, Matplotlib, Seaborn

UI/UX & Design: UI/UX Prototyping , User Research , Adobe Creative Suite

Cloud & Tools: GCP, Docker, Git

Interpersonal: Leadership , Technical Documentation , Problem Solving , Adaptability

PROJECTS

Public Sector Project (PoC) - FAQ AI Chatbot & System Testing Mandrill Tech	June 2026
Technologies: Python, LlamaIndex, RAG, Vector Embeddings	
- Built a Retrieval-Augmented Generation (RAG) chatbot for FAQ data using LlamaIndex. - Developed vector store index, query engine, and admin portal with email notification system. - Conducted robustness testing and compiled full PoC technical documentation.	

PROJECTS

- Car Sales Forecasting (PoC) | Mandrill Tech

May 2026

Technologies: Python, Matplotlib, Seaborn, Tableau
 - Built and evaluated machine learning forecasting models using Python to predict vehicle sales trends from historical data (2010–2024).
 - Performed exploratory data analysis (EDA), feature engineering, and time-series lag variable creation to improve model performance.
- PnL Financial Dashboard | Personal Project

May 2026

Technologies: Angular 17, D3.js, Express.js, PostgreSQL, Knex ORM
 - Built a full-stack financial analytics dashboard with real-time P&L metrics across regions.
 - Designed relational DB schema and developed custom D3.js visualizations including bar charts and margin trend charts
- Employee Learning and Advancement System (ELAS) | Developer & Analyst

Sept 2025 - Jan 2026

 - Replaced manual spreadsheet tracking with a centralized web platform, streamlining professional development records for 100+ employees
 - Implemented automated logic to track and calculate Continuing Professional Education (CPE) points, reducing data processing time by 80%.
 - Designed 5 interactive dashboards to enable real-time monitoring of staff training progress, increasing compliance visibility by 95%

HONOURS & AWARDS

Albukhary International University , Dean List Award	2024 - 2026
Albukhary International University , Best Projects Poster Award	2023
Management & Science University, First class Honours Dean Scholarship Award :JPA	2022
Management & Science University, Best Participant of Program Mahasiswa Cemerlang Award	2022
Management & Science University, Best Student Award - CS Award	2021

CONTRIBUTION

MENTOR	Young Innovators Challenge (YIC)	2024-2025
MEMBER	AIU STI Madani Fasa 2 Organizing Committee	2025
MEMBER	AIU National Day Celebration Organizing Committee	2025
MEMBER	AIU Kedah Maker Fair Organizing Committee	2024-2025
REVIEWER	MSU iReX 15.0	2023
MEMBER	MSU iReX 15.0 Programme Committee	2023
VOLUNTEER	MSU Community Services : Program Jalinan Kasih	2022

ADDITIONAL INFORMATION

- Languages: Malay, English
- Certifications: Google Cloud Skill Badges, PCEP – Certified Entry-Level Python Programmer: (In Progress), CompTIA Cloud+: (Expected Completion: Jan 2027)

REFEREES

Nasrollah AbdKhair Solution Consultant • Special Project , Mandrill Tech Sdn Bhd
